 8148528840

 14, Pottinaidu 3rd cross street, Vandavasi- 604408,

 June 11, 2008

 <https://www.linkedin.com/in/prithiviraj-e-60a89b396/>

Skills

- Python Programming
- Artificial intelligence
- Data Science
- UI/UX Design
- Prompt Engineering
- Web Development
- AI/ML Fundamentals

Languages

Tamil

English

Hobbies

- Reading
- Video gaming

Summary

B Tech Artificial Intelligence & Data Science student with a strong background in Python, Data Analysis, Generative AI, and modern UI/UX Design. Hands-on experience in engineering AI-powered web applications, applying advanced prompt engineering strategies, and translating data-driven concepts into user-centered digital products. Dedicated to solving complex real-world problems and eager to contribute to cutting-edge AI and software technology initiatives.

Education

J.N.N Institute of Engineering

Sep 2025 - Present

Bachelor of Technology – Artificial Intelligence · (2025 - 2029)

Internships

Data Science and Machine Learning Intern

Jul 2026 - Aug 2026

UniConverge Technologies & UPSkill Campus, Noida

- Participated in hands-on technical training** focused on exploratory data analysis, predictive statistical modeling, and end-to-end machine learning workflow.
- Collaborated on an industry project** in partnership with the All India Council for Technical Education (AICTE), developing practical AI solutions.
- Developed practical skills** in core Data Science methodologies, data Preprocessing, and model evaluation to solve technical problem statements.

Courses

Prompt Engineering for Everyone

Jun 2026

- Mastered foundational generative AI workflow** and prompt design techniques powered by the IBM Developer Skills Network.
- Developed practical skills** in structuring precise context, system constraints, and instructions to optimize large language model (LLM) outputs

Introduction to Data Science

Aug 2026

- Acquired foundational knowledge** in core Data Science methodologies, data analysis techniques, and predictive workflow

Certificate

Introduction to Data Science (Infosys Springboard)

Aug 2026

- Acquired foundational knowledge** in core Data Science methodologies, data analysis techniques, and predictive workflow.

Python (FreeCodeCamp)

Present

- Mastering core software development concepts** including complex data structures, algorithmic problem-solving, and object-oriented programming (OOP).
- Building a portfolio of interactive** Python projects to demonstrate proficiency in writing clean, efficient, and structured code.
